

The screenshot shows a VS Code editor with a file explorer on the left and a terminal at the bottom. The file explorer shows a project structure for 'Employee-Background-Verification' with folders 'admin' and 'backend'. The 'admin' folder contains 'admin_dashboard.html', 'admin_login.html', 'admin.css', and 'admin.js'. The 'admin_login.html' file is open in the editor, showing HTML code with a meta charset, title, link to 'admin.css', script for 'admin.js', and a CSS style block with a gradient background and animation. The terminal at the bottom shows the command prompt and the output of running 'node server.js', indicating the server is running on http://localhost:5000 and MongoDB is connected.
